## EXPERIENCE

**Relume**

*Software Engineer* Nov 2025 – Present

- Built most of the product UI for Relume 2.0, an AI website builder, as a React and TypeScript single-page application.
- Built the mobile editor for chatting with AI, editing sites and publishing on the go.
- Rebuilt the product's design system on Radix and Base UI primitives, with Motion animations.
- Helped build pricing, paywall and in-app hosting checkout flows.
- Cut typecheck time from 90 to 23 seconds by migrating to TypeScript 7.
- Reduced lint and format checks from nearly 8 minutes to 5 seconds and test discovery from 110 to 11 seconds.

*Frontend Engineer* Mar 2024 – Nov 2025

- Created 1,500+ reusable, responsive components in React, TypeScript and Tailwind CSS for Relume's React Library, each editable in Relume's Site Builder.
- Set up visual regression testing with Playwright for every component at desktop, tablet and mobile breakpoints.
- Shipped the library as a shadcn/ui registry, with a React export that installs any project, page or section in one command.
- Built the component styling behind Preview view, bringing Style Guide Builder styles into live page previews.

**Freelance**

*Frontend Engineer* 2021 – Mar 2024

- Built responsive landing pages, multi-page websites and CMS-driven sites for clients.

## PROJECTS

**Intizam** intizam.app

*Founder* Jul 2026 – Present

- Designed and built a web platform for fitness and nutrition coaches to train and check in with clients online.
- Shipped workout logging, photo check-ins, habits, nutrition plans and real-time messaging end to end in React, Go and PostgreSQL.
- Analyzed negative reviews of competing coaching apps and fixed the most common complaints.

**Blocks MCP** blocks-mcp.vercel.app

*Founder* Mar 2026 – Present

- Built a catalog of 1,250 React website blocks in 18 collections that install through the shadcn registry.
- Built an MCP server that lets AI coding agents search, inspect and install blocks, then follow a guided website build from brief to theme to plan.

## EDUCATION

**University POLITEHNICA of Bucharest** Bucharest, Romania

*Bachelor's degree in Computer Science and Engineering* 2019 – 2023

## SKILLS

**Languages:** TypeScript, JavaScript, Go, SQL, HTML, CSS

**Frontend:** React, Tailwind CSS, shadcn/ui, Radix UI, Base UI, Motion, MobX, TanStack Query

**Frameworks:** Next.js, React Router, TanStack Router, Astro

**Backend:** Node.js, Go, PostgreSQL, sqlc, Prisma, REST APIs (OpenAPI), Server-Sent Events, River job queues, MCP

**Testing:** Playwright, visual regression testing, Storybook, Jest

**Infrastructure and tools:** Docker, AWS S3, Vercel, Render, Clerk, Git, GitHub, Figma
